

Los Ranchitos HOA Tiered Water Schedule

Base Rate = \$15.00 per month

Notes

1. To determine your total cost of water used per month (using Table 1 below).
2. First find the range of the volume of water used (left column).
3. Next, use the right column to calculate your cost. Each 1,000 gallons incurs the indicated cost, so you must do some math.

EXAMPLE

You used 7,235 gallons in June

STEP 1. First find the range of 5,001 - 10,000 (left column).

STEP 2. Multiply \$4.00 3 times (once for 5,001 - 6,000, once for 6,001 - 7,000 and again for 7,001 - 7,235). Subtotal = \$12.00

STEP 3. Add \$2.00 4 times (once for each of the 1,000 increments between 1,001 and 5,000). Subtotal = \$8.00

STEP 4. Add the \$15.00 base rate.

The total cost for this example is \$35.00 (\$12 + \$8 + \$15).

EASIER: Use Table 2 below! Find your range of water used in the left column and read your monthly cost in the far right column.

TABLE 1

Water Used (gallons per month)	Cost (per 1,000 gallons used)
0 - 1,000	\$0.00
1,001 - 5,000	\$2.00
5,001 - 10,000	\$4.00
10,001 - 15,000	\$12.65
15,001 - 20,000	\$21.20
20,001 - 30,000	\$21.30
30,001 - 40,000	\$21.40
40,001 - 50,000	\$21.50
Over 50,000	\$21.60

TABLE 2

Range of Water used (gallons)	Tiered Cost (not including Base Rate)	Total Cost (including \$15 Base Rate)
0 - 1,000	0.00	15.00
1,001 - 2,000	2.00	17.00
2,001 - 3,000	4.00	19.00
3,001 - 4,000	6.00	21.00
4,001 - 5,000	8.00	23.00
5,001 - 6,000	12.00	27.00
6,001 - 7,000	16.00	31.00
7,001 - 8,000	20.00	35.00
8,001 - 9,000	24.00	39.00
9,001 - 10,000	28.00	43.00
10,001 - 11,000	40.65	55.65
11,001 - 12,000	53.30	68.30
12,001 - 13,000	65.95	80.95
13,001 - 14,000	78.60	93.60
14,001 - 15,000	91.25	106.25
15,001 - 16,000	112.45	127.45
16,001 - 17,000	133.65	148.65
17,001 - 18,000	154.85	169.85
18,001 - 19,000	176.05	191.05
19,001 - 20,000	197.25	212.25
20,001 - 21,000	218.55	233.55
21,001 - 22,000	239.85	254.85
22,001 - 23,000	261.15	276.15
23,001 - 24,000	282.45	297.45
24,001 - 25,000	303.75	318.75
